Personal Statement

I am currently pursuing a Bachelor's degree in Artificial Intelligence. I have a foundational understanding of Python, C++, web technologies, and basic AI concepts, and I enjoy applying these skills through coursework and personal projects. I am eager to continue improving my technical abilities, work effectively in team environments, and gain practical experience through internships and real-world projects. I am a quick learner with a genuine interest in technology and am always looking for opportunities to learn, build new skills, and gain hands-on industry experience.

Projects

C++ & Python Projects

- Smart Parking System
Fully-working Python application with modern UI simulating a parking lot.
- Hospital Management System
Console-based implementing file handling concepts.
- Mobile Company Revenue Visualizer
Python based graphs with standard given data.

Web Development Projects

- Personal Portfolio using HTML and CSS
- Front-end of Temperature converter.

Experience

Graphics Designer

- Designed social media posts and promotional materials using Canva.
- Collaborated with a team under the direction of a social media manager.
- Transformed conceptual ideas into engaging visual content.

Education

BS Artificial Intelligence (2024 - Present)
University of Management and Technology
Johar Town, Lahore

Intermediate (2022 - 2023)

Bravians International School & College
(formerly Bahria Town School & College for Boys)

Matriculation (2020 - 2021)

Beaconhouse School System, Senior campus
Bahria Town, Lahore

Skills

Technical competencies

- Python (intermediate)
- HTML, CSS
- SQL

Tools

- VS Code
- MySQL
- GitHub
- Shopify

Core strengths

- Strong execution and problem-solving ability
- Fast learner and adaptable
- Team collaboration and leadership
- Powerful presentation and communication skills
- Active participation in extracurricular competitions
